CBD + Vitamin D tincture

[food supplement]

1.67% CBD

Product description:
Innovative food supplement combines Vitamin D and Cannabidiol from hemp flowers. Application of drops under your tongue is practical and comfortable, drops do not need to be diluted in water so active compounds are well and easily absorbed.

Recommended daily intake of tincture delivers 100% reference intakes of Vitamin D and CBD. Vitamin D affects plenty of body functions, has a role in the process of cell division, contributes to normal absorption of calcium and phosphorus and so contributes to the maintenance of normal teeth, bones and muscle function. Vitamin D contributes to the normal function of the immune system.
